

ECONOMIC IMPACT ANALYSIS

30 September 2010

Offutt Air Force Base, Nebraska

Home of the “Fightin’ Fifty-Fifth”

We are pleased to present the fiscal year 2010 Economic Impact Analysis for Offutt Air Force Base (AFB), Nebraska. Offutt AFB continues to enjoy an atmosphere of mutual respect and common interest in economic enhancement with the surrounding Nebraska and Iowa communities. Fiscal year 2010 saw significant changes to the base. Ground was broken on the \$19.5 million renovation of the base clinic, construction continued on the \$5.2 million Naval Operation Support Center, and construction was complete on the \$15 million 97th Intelligence Squadron facility. Military and civilian payrolls, combined with construction and service contracts, enhanced the local economic impact by generating an estimated 4,287 secondary jobs. This report details Offutt AFB's organizations, missions, aircraft, real estate, inventories, military and civilian payrolls, civic contributions, and secondary jobs created in the local area. It is important to highlight the base's local economic impact on our surrounding communities—more than \$2.9 billion in 2010. We are extremely proud of the thriving relationship we enjoy with our neighboring communities. The commitment of our people to the success of Offutt AFB will continue to exert a significant, positive economic influence for many years to come.

History of Offutt Air Force Base

Offutt Air Force Base's (AFB) great heritage began with the construction of Fort Crook between 1894 and 1896, some 10 miles south of Omaha and two miles west of the Missouri River. The new fort's namesake was Major General George Crook, a renowned frontier soldier and Civil War hero. Many of the original structures built on the post are still used today.

On 20 June 1896, the 22nd Infantry assumed command of Fort Crook. Other U.S. Army Infantry units shared command of the fort as each rotated tours in Cuba, the Philippines, and the Texas-Mexican border. On 10 September 1918, the 61st Balloon Company became the first air unit to command the post. In the spring of 1921, a field was built suitable for frequent takeoffs, landings, and refueling of military and

government aircraft on cross-county flights. In 1924, this field was dedicated in memory of Omaha's first air casualty in World War I, Lt Jarvis J. Offutt.

In late 1940, the Army Air Corps chose Offutt Field as the site for a new bomber plant. The plant's construction included two mile-long concrete runways, six large hangars and a huge 1.2 million square foot aircraft assembly building. The Glenn L. Martin Nebraska Company plant reached full-scale production in June 1942. A total of 531 B-29 "Superfortresses" and 1,585 B-26 "Marauders" were built by the end of World War II. These aircraft included the "Enola Gay" and "Bockscar," the B-29s that dropped the atomic bombs at Hiroshima and Nagasaki, Japan. Production ended 18 September 1945.

History of Offutt Air Force Base

In 1946, the post was transferred from the Army to the Army Air Forces. Offutt Field, including the Martin Bomber Plant, was transferred to the Air Materiel Command for an industrial reserve program. On 12 June 1946, the 431st Army Air Forces Base Unit was organized and the entire installation was renamed Offutt Field. On 13 January 1948, Offutt Field was re-designated Offutt Air Force Base and officially transferred to the new Department of the Air Force. Ten months later, on 9 November 1948, Offutt AFB gained international prominence when the Strategic Air Command (SAC) Headquarters was established in the Martin-Nebraska complex.

Offutt Air Force Base underwent startling changes in the Cold War years following World War II. Operations included the basing of alert tankers in the late 1950s and 1960s, support for intercontinental ballistic missile sites in Nebraska and Iowa in the 1960s, and worldwide reconnaissance from the mid-1960s to the present. Offutt AFB's population and facilities grew dramatically to keep pace with the increased operational demands. Headquarters SAC moved from the Martin-Nebraska complex to Building 500 in late 1956 and new base facilities in the 1960s and 1970s included a hospital, main exchange, commissary, and library.

Several new dormitories and over 2,000 family housing units were built in the late 1950s and 1960s. Additional housing and dormitories were added in 2000-2002 to replace some of the earlier outdated buildings.

With the end of the Cold War in the early 1990s, the military underwent drastic changes and reorganization. SAC was disestablished on 1 June 1992 and the United States Strategic Command (USSTRATCOM), a unified command, was activated the same day. With this historic change, operational control of Offutt AFB became the responsibility of Air Combat Command (ACC), another one of the Air Force's new commands.

The former Army outpost, once hard-pressed to support a few hundred soldiers, entered the 21st century with the resources and facilities to accommodate a combined military and civilian work force of some 10,000 while supporting over 20,000 dependents. The current USSTRATCOM resulted from the 1 October 2002 integration of two previous unified commands: United States Space Command and the former USSTRATCOM. Offutt AFB has undergone many changes in its long and distinguished history, but it continues to play a vital role in U.S. national defense.

Mission Descriptions of Large Associate Organizations

55th Wing – Host Unit

The 55th Wing is the largest wing in Air Combat Command. Operating on four continents, the Wing supports eight diverse flying missions. The “Fightin’ Fifty-Fifth” provides global reconnaissance, real-time intelligence gathering, command and control, information warfare, electronic attack, treaty verification and combat support to national leaders and agencies as well as Air Force and joint warfighters. The wing provides the President of the United States a survivable command center enabling him to transmit directions to U.S. military forces during peacetime and war. Additionally, the 55th Wing provides Offutt Air Force Base infrastructure supporting 50 associate units including Headquarters U.S. Strategic Command and the Air Force Weather Agency. The wing’s support functions include: base mobility; manpower; logistics; aircraft and vehicle maintenance; civil engineering; contracting; personnel administration and education; law enforcement; resource security; morale, welfare and recreation; medical and dental care; and local as well as global command, control, and communication capabilities. The wing performs staff requirements to include: administration; legal services; comptroller; public affairs; history; inspection; plans and programs; ground and flight safety; protocol; inspector general; chaplain services; sexual assault prevention and response; and equal opportunity functions for both military and civilian members. In closing, the hardworking men and women of the 55th Wing can proudly lay claim to the fact that, truly “the sun never sets on the Fightin’ Fifty-Fifth.”

United States Strategic Command

United States Strategic Command, headquartered at Offutt AFB, is one of ten U.S. Unified Combatant Commands under the Department of Defense.

The President assigned U.S. Strategic Command eight mission areas and within that are three unique lines of operation where forces are assigned--USSTRATCOM controls these lines to meet national security objectives. The three primary lines of operation are Strategic Deterrence, Space Operations and Cyberspace Operations. Strategic Deterrence is the longest-standing main line of USSTRATCOM's operations. The nation relies on USSTRATCOM to maintain credible response capabilities including nuclear, conventional, and non-conventional forces. Space Operations is another main mission area. It is vital to our economy, our national security, and our way of life. Space-based technologies are an integral part of U.S. defense capabilities and offer unique advantages to U.S., Allied and Coalition Forces. From the vastness of space, to the speed-of-light transmission of data, cyberspace constitutes USSTRATCOM's third line of operation. Cyber threats are as real as any military force or weapon and could seriously compromise our nation's safety and security.

In addition, there are other missions where USSTRATCOM's role is to integrate the forces, coordinate efforts and to ensure our people have the resources they need to do the job. These joint enablers are separate and distinct mission areas for which USSTRATCOM is responsible. Integrated Missile Defense (IMD) ensures America is prepared to defend itself and our deployed forces and allies against a growing range of global missile threats. IMD serves a vital role by bringing together emerging missile defense capabilities with crucial strategies that help warfighters around the world. Intelligence, Surveillance and Reconnaissance (ISR) identifies and recommends appropriate resources to meet high priority intelligence requirements. Essentially, we help ensure the best use of resources to provide decision makers and troops with crucial information when and where they need it. Information Operations (IO) uses information as a tool to change attitudes or perceptions, creating desired results. IO tactics help protect our own interests while disrupting the adversary's capabilities.

Mission Descriptions of Large Associate Organizations

USSTRATCOM is responsible for the operation and defense of the Defense Department's entire worldwide computer network and is prepared to conduct offensive operations in cyberspace to support the joint fight. Combating Weapons of Mass Destruction (CWMD) ensures America has the necessary plans, and troops are properly equipped, to combat chemical, biological, and nuclear weapons.

USSTRATCOM provides "Global security for America."

20th Intelligence Squadron

Assigned to Air Combat Command's Air Force Targeting Center, located at Langley AFB in Virginia, the 20th Intelligence Squadron (20 IS) was originally activated as the 20th Photographic Mapping Squadron in 1942. In these early years, the unit worked under many different names and was stationed all over the world from Sydney, Australia, to Colorado Springs, to Yokota, Japan. They participated in the Pacific air offensive and the occupation of Japan until inactivation in 1946. The 20 IS was reactivated in 1954 as the 20th Tactical Reconnaissance Squadron. In following years, it supported low-level, high-speed reconnaissance over Cuba during the Cuban Missile Crisis, and over North Vietnam during the Vietnam War, until it was deactivated in 1967. The unit was reactivated as the 20th Air Intelligence Squadron at Offutt AFB in 1992, and redesignated the 20th Intelligence Squadron in 1993. The unit provides tailored geospatial and precision targeting intelligence to combatant commanders and war fighting forces. The 20 IS is the sole DoD provider of target intelligence supporting the Conventional Air-Launched

Cruise Missile and one of two units that provide targeting intelligence to the Joint Air-to-Surface Standoff Missile. The 20 IS is also home to the Air Force Precise Point Positioning Program (AFP4). AFP4 is the sole service provider of target coordinate mensuration training and certification. Target coordinate mensuration is the process of measuring a feature or location on the earth to determine an absolute latitude, longitude, and height.

343d Recruiting Squadron

The 343d Recruiting Squadron (343 RCS) plans and executes Air Force programs to recruit high-quality men and women to meet the Air Force's manpower requirement in a broad range of enlisted and officer programs. The unit provides recruiting support covering 370,000 square miles over a six-state area including: Nebraska, Iowa, North Dakota, South Dakota, Minnesota, and Wisconsin. The 343 RCS supports 108 military members and Department of Defense civilians at 58 locations throughout its area of responsibility.

Strategic Communications Wing One Detachment

The Strategic Communications Wing One (SCW-1) Detachment at Offutt AFB accomplishes USSTRATCOM's Airborne Command Post (ABNCP) mission. Dedicated Sailors provide security, maintenance, administration, and logistic support for the Navy's E-6B "Mercury" aircraft. Take Charge and Move Out (TACAMO) Sailors have over 40 years of experience communicating with submerged ballistic missile submarines. TACAMO Sailors have over twenty years experience with command and control of submerged ballistic missile submarines, Air Force Bombers, and land-based missile silos. With the assumption of the ABNCP mission in 1998, TACAMO Sailors are fulfilling their role in USSTRATCOM's global mission of strategic deterrence through a joint-service team of motivated, vigilant men and women using the most advanced technological strategic forces in the world. The TACAMO Detachment also has complete responsibility for the daily operation of the Campisi Alert Facility at Offutt AFB and care of the TACAMO alert crew and ABNCP Battlestaff crew.

Mission Descriptions of Large Associate Organizations

Air Force Weather Agency

The Air Force Weather Agency (AFWA) is the Air Force's premier weather center, maximizing America's power through the exploitation of timely, accurate and relevant weather information; anytime, everywhere. AFWA is a Field Operating Agency, reporting to United States Air Force Director of Weather, Deputy Chief of Staff Air and Space Operations, and serves as lead command executing a \$175 million annual budget supporting the Air Force Weather Weapon System. The agency provides the highest quality weather equipment and training to Air Force Operational Weather Squadrons and weather flights around the world. More than 1,400 men and women at 14 different locations worldwide build a comprehensive weather database of forecast, climatological, and space weather products with 800,000 products produced daily. Air Force and Army field commanders and decision makers use these products for every military operation, contingency mission, and humanitarian relief effort conducted by the United States.

USAF Heartland of America Band

The USAF Heartland of America Band is an innovative, professional, military music organization dedicated to providing local, national and global audiences with incomparable musical products while directly impacting the overarching Air Force mission. They further endeavor to serve our nation's Air Force by cultivating both patriotism and kinship while bridging cultural barriers through music. The 46 member squadron is responsible for an eight state touring region that encompasses over 681,000 square miles – the largest area of any stateside Air Force regional band. Components of the band perform over 450 times annually for more than 300,000 audience members. The band and its various components are completely deployable worldwide.

Description of Real Estate Assets

2010

Family housing was privatized and turned over to America First Communities (AFC) on 15 September 2005. During the 5-8 year Initial Development Phase (IDP), AFC had the flexibility to place families throughout the community to increase occupancy. On 15 September 2005, the inventory of homes was 2,600. The renovation and new construction is now complete; the 2,154 unit breakdown is below.

OFFUTT AFB OPEN HOUSE An estimated 150,000 people attended Offutt AFB's "Defenders of Freedom" open house and air show August 28th and 29th. Main acts included the U.S. Air Force Thunderbirds aerial demonstration team, the F-22 Raptor demonstration team, and various current and past military aircraft. Dozens of military and civilian aircraft were on static display, including several aircraft available for walk through tours.

TREE CITY USA Offutt AFB was named a Tree City USA community by the National Arbor Day Foundation for the 22nd consecutive year. The base has also received 17 Tree City USA Growth Awards. These awards recognize the base for its comprehensive urban forestry program and environmental improvements associated with tree care.

COMBINED FEDERAL CAMPAIGN Offutt AFB people contributed more than \$565,000 for the FY2010 campaign. More than 1,500 national, state and local agencies benefit from the donations. Eligible local programs will receive a portion of the contributions.

BELLEVUE VETERANS PARADE Each year, approximately 400 Offutt AFB personnel continue to volunteer to march in Nebraska's official veterans' parade to recognize the sacrifices of everyone who has worn the uniform of the United States military throughout the years.

AIR FORCE ASSISTANCE FUND More than \$120,000 was raised for the Air Force Aid Society, Air Force Village Indigent Widows Fund, Air Force Enlisted Village, and General and Mrs. Curtis E. LeMay Foundation. The figure was almost \$13,000 above this year's fund goal.

ANNUAL ZOO CLEANUP More than 300 Offutt AFB personnel volunteered for the Henry Doorly Zoo "Spring-Clean" in April 2010.
